Therapeutic supplement for joint health & treatment

ANTI-INFLAMMATORY AND RESTORATIVE ACTION FOR THE BACK

DESCRIPTION

Premium Collagen is a molecular complex of **multiple ingredients**, based on collagen. Its unique formula, rich in active ingredients, provides many precursor nutrients of the joint and contains also a high concentration of MSM and powerful anti-inflammatory botanical extracts. The dosage of all these ingredients has been optimized to produce the most optimal effect on the joints. It is therefore an **ideal combination** to treat inflammation and deeply relieve damaged joints and back tissues.

BENEFITS

- Relieves joint and back pain
- Treats inflammation of the joints
- Repairs damaged articular tissues

PREMIUM collagen

Relief of joint pain related to intervertebral discs

THERAPEUTIC INDICATIONS AND CONDITIONS OF USE

Pain Management	Repairs & Regenerates	Strengthens the Articulation	Diseases/Physical Conditions	Prevention
Back pain Osteoarthritis Arthritis Rheumatism Particular diseases	Intervertebral discs Peridiscal connective tissue Cartilage joints Tendons/Ligaments	Joint structure: Intervertebral discs Cartilage Tendons Ligaments	Hernia Stenosis Osteoarthritis/Arthritis Tendonitis/Bursitis Capsulitis Sport and other injuries	Helps to maintain all connective tissues in good health

ADVANTAGES

Premium Collagen is in **liquid form** in contrast with most collagen based products, enabling a treatment with proper and optimal dosage. Perfectly assimilated, it is absorbed into the bloodstream and goes directly to the cells producing the connective tissue matrix. The anti-inflammatory ingredients act quickly and directly at the site of inflammation.

Premium Collagen is **highly concentrated in active ingredients** for greater efficiency. It should be noted that devil's claw, cat's claw and willow bark have active ingredients with a characteristic bitter taste hence the strong flavour of the product. To be taken with juice.

Premium Collagen is **rich in antioxidants**, with natural molecules of fruit extracts. These molecules help to overcome the degradation of collagen and cells in the body.

Premium Collagen is made of ingredients whose efficiency for back tissues and joints has been scientifically and clinically proven.

Premium Collagen is made for Intex Natural Products by Medelys Laboratories International Inc., a company founded by **Jean-Yves Leroux (Ph.D.)**, a renowned biochemist who has developed many successful formulations in the dietary supplement industry. To guarantee high quality products, Medelys is GMP (Good Manufacturing Practices) certified which ensures the integrity of its manufacturing processes and its conformity to the food safety regulations.

MEDICINAL INGREDIENTS (per 15 ml)

Common Name	Quantity	Activity
Hydrolyzed Collagen* (Bovine skin)	5000 mg (enhanced with 500 mg of lysine*)	As shown by scientific studies, it is essential for the collagen to be hydrolyzed (ie. broken down in smaller molecules/enzymatic digestion) because only the hydrolyzed form of collagen can stimulate the neo synthesis of the collagen matrix in the cartilaginous tissue.
Glucosamine Sulfate (Shellfish: crabs, shrimps)	1000 mg	Chemical compound found in the synovial liquid (around the joint) that provides a protective effect against cartilage deterioration.
Chondroitin Sulfate (bovine tracheas)	500 mg	Compound used in the neo synthesis of glycosaminoglycans and proteoglycans, essential components of the cartilage of all the intervertebral discs.
Methylsulfonylmethane (MSM)	1500 mg	Known as a strong anti-inflammatory, it is also an organic source of sulfur for all the molecules of the cartilage and connective tissues that need an adequate sulfur supply such as some amino acids (methionine, serine, threonine...) and many glycosaminoglycans.

Common Name	Quantity	Activity
Devil's Claw	600 mg	Botanical extract and powerful anti-inflammatory that acts on the inflammation of the connective tissues surrounding the joints. Also helps treat back pain.
Cat's Claw	100 mg	Botanical extract and analgesic for pain associated with backache
Willow Bark	600 mg	Botanical extract, analgesic and anti-inflammatory containing salicin (natural aspirin) which also acts on backache

*Amino acids : glycine, proline, hydroxyproline, glutamate, glutamine, alanine, arginine, aspartate, lysine, serine, valine, leucine, phenylalanine, isoleucine, hydroxylysine, tyrosine, methionine, histidine, cysteine.

NON-MEDICINAL INGREDIENTS

Citric acid, potassium sorbate, sodium benzoate, sodium citrate, stevia, natural vanilla, grapefruit and berry flavours.

SUGGESTED USE

Mix one tablespoon with half a cup of juice and take before a meal. Avoid taking at bedtime. Use for at least three to six months. May take one month to see the beneficial effects.

CAUTIONS AND WARNINGS

Potential cross-reactions in case of allergies to shellfish and additive effects to antiplatelet drugs. Individuals taking anticoagulants or antihypertensives, who have hypersensitivity to salicylates or severe allergies, who suffer from disorders of the immune system, from liver or kidney diseases, cancer, or asthma, those on a low protein diet, or those whose symptoms worsen after using the product beyond six months should consult a health care professional regarding the use of this product. **PREGNANT OR BREASTFEEDING WOMEN SHOULD NOT TAKE THE PRODUCT.**

ADVERSE REACTIONS

Rare possibilities of mild gastrointestinal bloating, constipation or indigestion.
